
RESOURCE DEVELOPMENT COMMITTEE REPORT 2014-2015

The Resource Development Committee was created to secure the financial resources that would enable the Coquitlam Foundation to achieve its Mission and Goals while providing opportunities for growth.

In January 2015, Randy Reynolds and Derek Bell from the FAB Financial Advisor's Brokerage Group Inc. made a presentation to the board which outlined some options that could be presented to potential donors.

Their presentation focused on offering types of donations that would be tax efficient for the donors and would provide present and future funds to the association. One of the options they suggested was to encourage donors to make donation of securities, such as shares and bonds of public companies or Mutual Funds to the foundation. Other opportunities discussed involved insurance policies that donors would establish with the foundation being the beneficiary.

The committee will be looking at ways to work with other CF committees to increase the community's awareness about the foundation.
